This comic is presented in its original Japanese right-to-left format, in order to preserve as much of the detail and orientation of the original artwork as possible. Readers unaccustomed to this "manga-style" order are welcome to download the Left-to-Right Edition of this comic.

But if you prefer authenticity or simply wish to have fun trying something new, all you need to do is start from the top-right panel of each page and work your way towards its lower left-hand corner. Please use the guide below to see an example of the reading order you will encounter:

Hello, my name is SYS-KAN and this is my first post.
As written in the title, I upgraded to Ubuntu 8.10 on 11/27, but ended up with an X Server failure
I tried to figure out the cause, but I'm not privy to how X works and I'm not sure what to do now. I would be very grateful for any kind of assistance I can get from this forum.
I've attached copies of the xorg.conf and Xorg.0.log files if it will help.
Thank you.
AH!!
Flustered
...POST THIS FOR ME?!
DID M-MASATO...

THAT'S WHY I COULDN'T FIGURE IT OUT...

I have the same problem in my system. Now that I know it's a bug, I guess we have to wait for a fix.

AN X.ORG BUG...?

WOULD HAVE THE SAME PROBLEM.

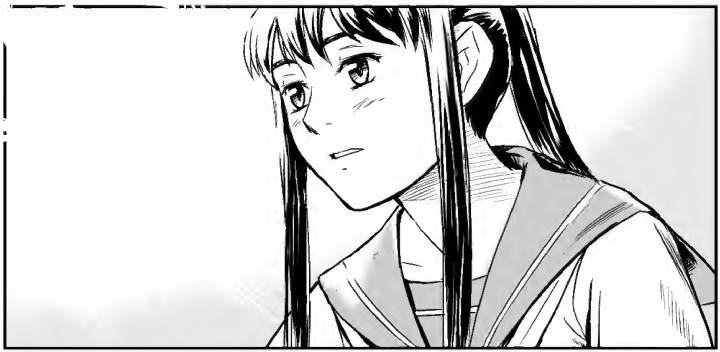
I NEVER REALIZED SO MANY PEOPLE...

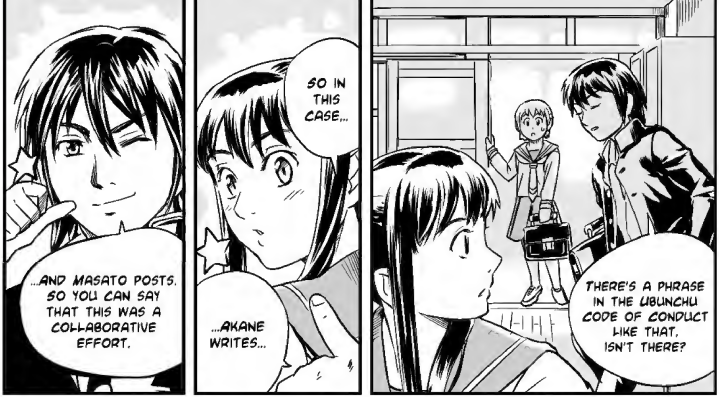
I can confirm this problem after an upgrade to Intrepid. The issue lies with the permissions for the xorg.conf file of X.org 7.4.

I reported this bug to Launchpad, so the problem should be fixed shortly.

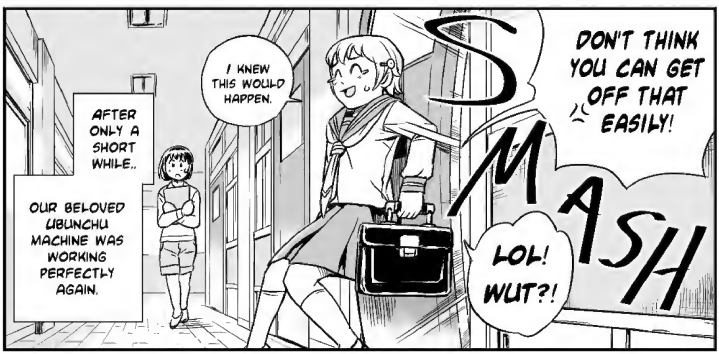
THERE ARE ALREADY SO MANY REPLIES...

My heartfelt thanks to SYS-KAN for the first detailed report!





...AND MASATO POSTS. SO YOU CAN SAY THAT THIS WAS A COLLABORATIVE EFFORT.
SO IN THIS CASE...
...AKANE WRITES...
THERE'S A PHRASE IN THE UBUNCHU CODE OF CONDUCT LIKE THAT, ISN'T THERE?



AFTER ONLY A SHORT WHILE..
OUR BELOVED UBUNCHU MACHINE WAS WORKING PERFECTLY AGAIN.
I KNEW THIS WOULD HAPPEN.
LOL! WUT?!
SMASH
DON'T THINK YOU CAN GET OFF THAT EASILY!

I'LL LEAVE THAT UP TO YOU....

Click Submit

BUT WILL AKANE EVER GET OVER HER FEAR OF FORUMS?

The End.
